## EXPERT GROUP

The below group of experts in sexual and reproductive health and rights designed the questions and structures for the Atlas.

Hon Petra Bayr, MP (Austria)

Prof. em. Johannes Bitzer, EBCOG delegate

Maud Boey, Youth representative, Sensoa (Belgium)

Prof. Sharon Cameron, Science and Education Committee, European Contraception Society

Neil Datta, EPF Executive Director

Marta Diavolova, UNFPA EECARO

MU. Dr. Jan Greguš, OB/GYN (Czech Republic)

Rositsa Kratunkova, Medicins du Monde (Bulgaria)

Dr. Georgios Papadomanolakis, Medicins du Monde (Greece)

Cristina Puig, European Consortium for Emergency Contraception

Prof. Marleen Temmerman, Aga Khan University

Krzysztof Wojciechowski, Organon

Project Coordinators:  
Marina Davidashvili and Leonidas Galeridis, EPF

## INTERNATIONAL GUIDELINES

### Nairobi Statement on ICPD25 : Accelerating the Promise (2019)

We, representing all nations and peoples, and all segments of our societies [...] will [...] achieve universal access to sexual and reproductive health and rights as a part of universal health coverage (UHC), by committing to strive for [...] zero unmet need for family planning information and services, and universal availability of quality, accessible, affordable and safe modern contraceptives.

Source: <https://www.nairobisummitcpd.org/content/icpd25-commitments>

### Parliamentary Assembly of the Council of Europe: Resolution 2331 (2020) Empowering Women: Promoting Access to Contraception in Europe

The Assembly calls on [...] to ensure that all modern methods of contraception, including emergency contraception without prescription, are made available to the public, including in rural and remote areas and to marginalised and vulnerable groups; [...] ensure the affordability of contraceptive methods by including them in national health insurance schemes [...] develop specific coverage or subsidisation schemes for young, low-income and vulnerable groups, [...] review such schemes regularly to ensure their effectiveness; [...] provide affordable, confidential and non-judgmental individual counselling to those seeking contraception.

Source: <http://assembly.coe.int/nw/xml/XRef/Xref-XML2HTML-en.asp?fileid=28675&lang=en>

### European Parliament Resolution (2021) on the Situation of Sexual and Reproductive Health and Rights in the EU, in the Frame of Women's Health (2020/2215(INI)).

European Parliament [...] calls on the Member States to ensure universal access to a range of high-quality and accessible modern contraceptive methods and supplies, family planning counselling and information on contraception for all, to address all barriers impeding access to contraception, such as financial and social barriers, and to ensure that medical advice and consultations with healthcare professionals are available, allowing all persons to choose the contraception method that best suits them, and thereby safeguarding the fundamental right to health and the right to choice; [...] taking into account success rates in the long term; [...] Recalls that Member States and public authorities have a responsibility to provide evidence-based, accurate information about contraception.

Source: [https://www.europarl.europa.eu/doceo/document/TA-9-2021-0314\\_EN.pdf](https://www.europarl.europa.eu/doceo/document/TA-9-2021-0314_EN.pdf)

## MAIN FINDINGS

Access to modern, effective and affordable contraception remains a European challenge. Yet there is overall a positive progression across most of Europe. Out of 46 countries analysed:

- 20 countries (43%) **cover contraceptives** in their national health system and include LARCs;
- 14 countries (30%) **cover contraceptives** in the national health systems for young people to 25 years old or older;
- 41 countries (89%) **cover counselling** within the national health system;
- 19 countries (41%) provide **good or exceptional governmental websites**.

## Who is behind the Atlas?

This initiative is powered by the European Parliamentary Forum for Sexual and Reproductive Rights (EPF). We are grateful to the numerous national organisations and country experts who contributed to gathering the data presented in the Atlas. The Atlas was produced in partnership with a group of experts in sexual and reproductive health and rights (see above) who designed the questions and structures. EPF benefitted from the financial support of Organon to undertake original and independent research which is presented in the Atlas. The scope and the content of the Contraception Policy Atlas Europe is the sole responsibility of the European Parliamentary Forum for Sexual and Reproductive Rights (EPF).

# CONTRACEPTION POLICY ATLAS EUROPE

Tracking government policies on access to contraceptive supplies, family planning counselling and the provision of online information on contraception

## ACCESS TO MODERN CONTRACEPTION

Countries (in alphabetical order)	Ranking index of countries	ACCESS TO SUPPLIES				ACCESS TO COUNSELLING					AVAILABILITY OF ONLINE INFORMATION							Countries (in alphabetical order)
		COVERAGE OF CONTRACEPTIVES				COVERAGE OF COUNSELLING			PRESCRIPTION REQUIREMENTS		TYPE OF ONLINE INFORMATION	INFORMATION COVERAGE			USER FRIENDLINESS			
		Level of coverage within the national health system	Special coverage for young people (until 19 or 25)	Special coverage for vulnerable groups (unemployed, low-income)	At least one LARC is covered by the national health system	Level of available, accessible, and affordable consultation	Need for third-party consent	Legal status (marital, citizenship) is not a barrier	Availability of emergency contraception	Hormonal contraceptives available without prescription		Number of contraceptives listed	Info on costs of contraceptives	Info where to get contraceptives	Regional or minority language included	Web design	Discoverability of the website online
